Date: Jan 5, 2019

Eileen McKusick, MA developed Biofield Tuning, based on sound and physics principles. The mapping the Human Biofield, she has found how the magnetic fields influence our physical, mental and emotional well being. By researching academic, scientific and esoteric approaches. Sound through Biofield Tuning uses sound to influence the nervous system through the biomagnetic field. How therapeutic sound resonates and the role of electricity and plasma in the universe and our bodies. Tuning the Human Biofield by Eileen McKusick Video -<https://youtu.be/topPjxby50>

The balance to life is a magnetic vortex, holding together patterns, which emerge in ones life cycle. Circling and returning anew, an endless circle of motions. With magnet waves - we can heal the mind, body and soul, the field of life holds together.

Dawn Galeener
